

TNR/EXCACD/041/2021-22

Date: 30/09/2021

Dear Parents & Students,

In collaboration with Smartcircuits Innovation Pvt. Ltd. and International United Educationists Fraternity (IUEF) TNR Excellencia Academy, has organized a virtual seminar (webinar) focused on the theme of Space Awareness and its associated fields – in particular, Space Astronomy, Rockets and Careers in space.

The session will be very enriching and exciting for our young learners, as they get to explore varied information in spatial context, thus helping them in enhancing their understanding on the topic. They will also be working closely with Mr. Raghav Sharma, an expertise in this field during the online session.

We, as a school and apart of the larger community together want our young learners to lead to major advancements in this field and contribute significantly to our understanding of space and beyond.

IUEF and Smartcircuits in the near future aims to bring together researchers in the field and engage with the scientific community in our country and our collaborators globally.

You as parents have always been an integral part in the learning journey of your child. Thank you for your support and co-operation as always.

Students studying from home shall be sent an online link by us before the program. They need to log in from home.

Students coming to school regularly will be attending the program from the school.

Who can attend: Students of Grade VI - IX

Date: 2nd, October, 2021

Time: 10:30 am -11:30 am

Parents are requested to encourage their wards to participate in the program enthusiastically.

Thanks and Regards,

Karina D'Mello

Program Coordinator
